 (PKR 8,189 million in July 2015)

Reasons

The KSE-100 Index decreased by 2.84% (1,015.01 points) to close at 34,726.51 points in August'15. Daily average trading volume decreased by 32% MoM to 305mn shares from an average of 447mn sharetraded during the month of July'15. Slowing growth in the Chinese economy along with declining export has prompted Chinese central bank to devalue its Yuan against Dollar. This has negatively impacted global equities as investors fear currency war and slow down in global economy. Therefore world equity markets declined during the month followed by international currency devaluation and thus continuous foreign outflow was witnessed in the local stock market.
